Special Note: During this Landslide Early Warning period, please pay attention to the following:

1. Pay your attention to the following pre landslide signs,

- Development of cracks on the ground, deepened cracks and ground subsidence
- Slanting of trees, electrical posts, fences and telephone posts
- Cracks in the floors and walls of buildings which are built at slopes
- Sudden appearance of springs, emerging muddy water, blockage or disappearance of existing springs

2. People should move immediately away from the areas where they noticed the above pre-landslide signs.

3. Furthermore, people living in landslide susceptible areas should be extra vigilant and should be ready to move quickly to safe places if heavy rain continues.

Note: Communities are advised to follow the instructions given by National Building Research Organization and Disaster Management Center.
